Re: **Tronox LLC (TRX)**
NDEP Facility ID #H-000539
Nevada Division of Environmental Protection Request for Revised Site-Related
Chemical (SRC) List

Dear Ms. Crowley,

The NDEP has reviewed the file for the TRX facility and has noted that the SRC list was last submitted by TRX in March 2006 in an electronic format. It is unclear whether the March 2006 SRC list was updated from the October 2004 version or just modified to include laboratory and analysis information. As stated in a NDEP October 27, 2004 approval letter, the SRC list is considered a living document and should be updated periodically. In the March 2006 SRC list, the table labeled "Alphabetical Site Related Chemicals List" has several discrepancies when compared to the tables labeled "SRC" and "SRC by Method". For example, the Alphabetical Site Related Chemicals List contains broad items (e.g. synthetic detergent, various lab wastes, etc.) while the other two tables contain specific chemicals only. The Alphabetical table should be modified to include more detail about the broad items (perhaps as a supplemental table). Additionally, TRX should also revise the SRC lists as necessary based on data collected from Site investigations completed since the last update. The modified and updated SRC lists should be submitted by **March 14, 2008**. Please contact the undersigned with any questions at sharbour@ndep.nv.gov or (702) 486-2850 x 240.

Sincerely,

Shannon Harbour, P.E.
