Nevada Division of Environmental Protection (NDEP) Response to:
*Revised Electronic Data Deliverable for Data Validation Summary Report: Parcel "C",
"D", "F", "G" and "H" Soil Confirmation, Tronox LLC, Henderson, Nevada: NDEP
Facility ID # 000539*
Dated: July 21, 2010

Dear Mr. Paque,

The NDEP has received and reviewed TRX's above-identified Deliverable and finds that the document is acceptable with the following comments noted for the Administrative Record:

1. In correcting data issue b from the original comments (229 results which have a final_validation_qualifier but no reason code), it appears that all records where final_validation_reason_codes was NULL have now been filled in with the new code "nd" (not detected). This means that V2 of the EDD now has 7 results for which final_validation_qualifier is NULL and detect_flag_fod = T which have final_validation_reason_codes set to "nd", which is clearly incorrect. Neptune has set final_validation_reason_codes back to NULL for these records in V3.
2. In addressing data issue e (location_id S3-PG-1-1, which is found in the samples table, is missing from the locations table), the location S2-PG-1-1 (which appears in the samples table) appears to have been inadvertently deleted from the locations table. Neptune has copied the location information for this location from the locations table of the previously reviewed version of the database into the location table for the newest version (V3).

The revised version, V3, of the database will be provided electronically to TRX and Northgate Environmental Management, Inc. under separate cover. Please contact the undersigned with any questions at sharbour@ndep.nv.gov or 775-687-9332.

Sincerely,

Shannon Harbour, P.E.
