Nevada Division of Environmental Protection (NDEP) Response to:
*Waste Classification for LOU 10 (Former Hazardous Waste Landfill), Tronox Facility,
Henderson, Nevada*
Dated: September 28, 2010

Dear Mr. Paque,

NDEP acknowledges receipt and has reviewed the waste characterization information developed by TRX in the above-referenced Deliverable. As the generator of the solid waste from the landfill, TRX has the responsibility to appropriately characterize the waste and make a waste determination. Because the waste characterization involves use of generator knowledge, NDEP is not in a position to concur with the waste characterization as non-hazardous. NDEP does not request any additional information regarding waste characterization in regard to material excavated from the hazardous waste landfill. NDEP requests that ultimate disposition of material in the Hazardous Waste Landfill be provided along with supporting documentation (bills of lading) in the RZ-D closure and HRA report(s). Please contact the undersigned with any questions at sharbour@ndep.nv.gov or 775-687-9332.

Sincerely,

Shannon Harbour, P.E.
