Nevada Division of Environmental Protection (NDEP) Response to: NERT Response to NDEP October 7, 2013 Comments on the Soil Gas Investigation Report and Health Risk Assessment for Parcels C, D, F, G and H, Reversion 0; Nevada Environmental Response Trust Site, Henderson, Nevada; dated July 25, 2013

Dated: November 22, 2013

Dear Mr. Steinberg,

The NDEP has received and reviewed the Trust's above-identified Deliverable and finds that the document is acceptable with the following comments noted for the Administrative Record:

1. This approval is based on the fact that the soil gas health risk assessment for Parcels C, D, F, G and H was evaluated as combined data set with maximum concentrations for all COPC's other than Chloroform. Additional data may be required if the soil gas health risk assessment of these parcels needs to be evaluated parcel by parcel.

Please contact the undersigned with any questions at wdong@ndep.nv.gov or 702-486-2850 x252.

Sincerely,

Weiquan Dong, P.E.
