Stephen R. Clough, P.G., C.E.M., Remediation Director  
Nevada Environmental Response Trust  
510 S. 4<sup>th</sup> St.  
Henderson, NV 89015

**RE: 100% P&S Approval: Pond AP-5 Solids Dewatering Project  
Permit # NS2001515**

Dear Mr. Clough:

The Nevada Division of Environmental Protection (NDEP) has reviewed the 100% (FINAL) plans and specifications for the Pond AP-5 Solids Dewatering Project, which were received by this office on October 18, 2016. Based upon our review, the 100% plans and specifications are hereby approved for construction. Please note the following conditions:

1. Within thirty (30) days of construction completion, a Nevada registered professional engineer (P.E.) provides this office certification that the project was constructed in accordance with the plans and specifications approved by this letter.
2. If this project's construction activities will result in the disturbance of > 1 acre of soil surface, a Construction Stormwater Permit will be required, which can be applied online at the following website location: [http://ndep.nv.gov/bwpc/storm\\_cont03.htm](http://ndep.nv.gov/bwpc/storm_cont03.htm)

Review or approval of facilities plans, design drawings, and specifications or other documents by or for the Division is for administrative purposes only and does not relieve the owner of the responsibility to properly plan, design, build and effectively operate and maintain the facility as required under law, regulations, permits, and good management practices. The Division is not responsible for increased costs resulting from defects in design, plans and specifications or other pertinent documents.

A discharge permit must be issued from this Division before construction or modification of any treatment works (per NRS 445A.585). Also, the applicant is responsible for all other permits that may be required, which may include, but not be limited to:

Dam Safety Permits -	Division of Water Resources
Well Permits-	Division of Water Resources
404 Permits-	U.S. Army Corps of Engineers and NDEP
Air Permits-	Local Government (Clark County)
Health Permits-	Local Government (Clark County)
Local Permits-	Local Government (Special Use Permits, etc.)
Storm Water Permits-	NDEP
Dewatering Permits-	NDEP

The Division must approve all addenda and change orders. A copy of a transmittal form (WTS-13) is included herewith. That form must be completed and sent to the Division with each addendum or change order.

If you have questions in regards to this approval letter, please feel free to contact me at (775) 687-9424.

Sincerely,

Mark A. Kaminski, P.E.  
Technical, Compliance & Enforcement Branch  
Bureau of Water Pollution Control
