Integrity Field Evaluation Work Plan, Nevada Environmental Response Trust
Henderson, Nevada

Dated: September 7, 2017

Dear Mr. Steinberg,

The NDEP has received and reviewed the Trust's above-identified Deliverable and finds that the document is acceptable with the following comments noted for the Administrative Record:

1. NDEP suggests that NERT continue this investigate into possible factors that would have caused the barrier wall's integrity to fail if compromising segments are found. It should be noted that TIMET found that their barrier wall construction with a mixture of the commercial available bentonite and local clay is not compatible with the site groundwater chemistry and the wall cannot stay low permeability over time.

Please contact the undersigned with any questions at wdong@ndep.nv.gov or 702-486-2850 x252.

Sincerely,

Weiquan Dong, P.E.
