11/29/2011

- Uploaded Montrose DVSR 40: Site-Wide Groundwater Monitoring Program Annual 2011. A non-approved EDD of this data was previously imported on 11/02/2011 - those data have been removed from the database.

11/11/2011

- Uploaded additional unvalidated or validated but not approved data sets from POSSM, NERT(Tronox), and Timet to supply missing 2010 Groundwater data.
- Changed datasource_validated field from a binary T or F field to one with multiple possible values:
 - U = Unvalidated
 - VN = Validated but not officially accepted by NDEP (still under review).
 - V = Validated and accepted.

11/02/2011

- Uploaded unvalidated groundwater data sets from AMPAC, POSSM, and NERT - added new field datasource_validated to distinguish between validated and unvalidated data.
- Fixed error which was causing some Uranium-238 results to show up as inorganic Uranium and some Thorium-232 results to show up as inorganic Thorium.
- Palladium was mistakenly listed with an analyte_type of 'Rad'; changed to 'Inorganic'.

07/18/2011

- Uploaded BRC DVSR 72b.

06/07/2011

- Uploaded PSSM groundwater level data covering the period from 04/25/2008 to 12/16/2010.
