RE: *Nevada Division of Environmental Protection (NDEP) Response to: Technical Memorandum: Schedule for Stained Area Confirmation Sampling, Tronox Henderson Remediation Project, Henderson, Nevada, dated February 4, 2011*

COMMENTS:

On behalf of Tronox LLC, Northgate Environmental Management, Inc. submits the following response to the subject document:

1. *TRX should submit a revised Figure 1 that shows the location of the visually impacted soil on the property boundaries and in RZ-D-25A.*

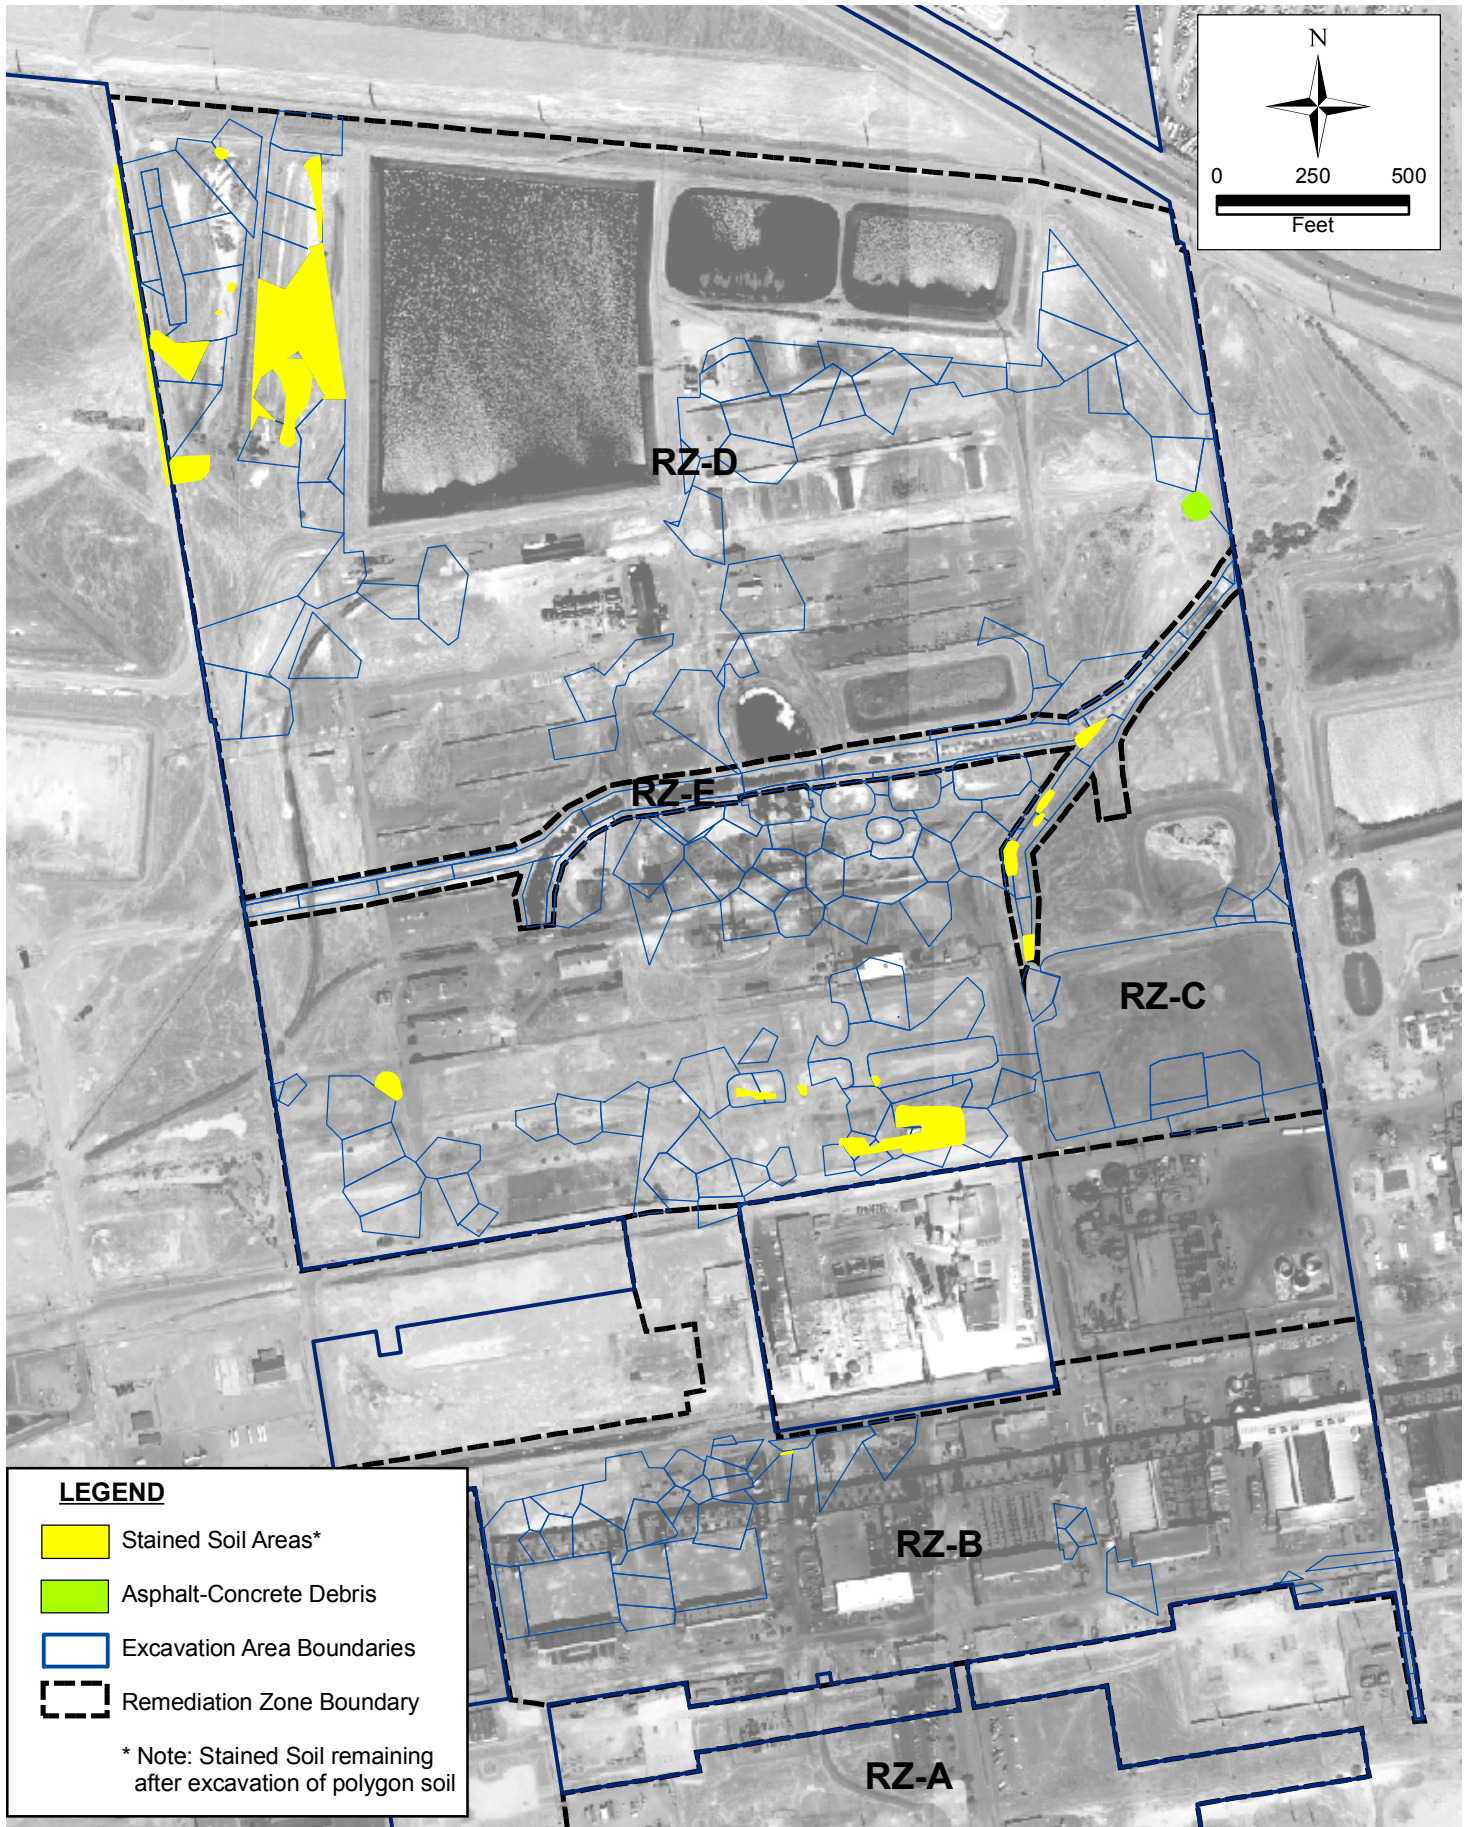

RESPONSE: Please see the attached revised Figure 1, which has been revised to show the location of stained soil observed in the vertical cut at the western property line in the northwest corner of RZ-D and the area where asphalt concrete debris was found in RZ-D-25, as well as a newly identified area of stained soil located at the end of the southeasterly extension of RZ-E.

2. *NDEP accepts the schedule for sampling with the understanding that sampling will occur within 2-days after the completion of removal activities for each area of visually impacted soils.*

RESPONSE: Tronox concurs that confirmation sampling will be performed within two days of the completed removal of stained soil in a discrete area.

Please contact us at (510) 839-0688 extension 201 with any questions.

LEGEND

- Stained Soil Areas*
- Asphalt-Concrete Debris
- Excavation Area Boundaries
- Remediation Zone Boundary

* Note: Stained Soil remaining after excavation of polygon soil
