RE: Report of Spill – Untreated Water at Lift Station 1
Nevada Environmental Response Trust
Henderson, Nevada

Dear Compliance Coordinator:

The Nevada Environmental Response Trust (NERT or Trust) maintains a National Pollutant Discharge Elimination System (NPDES) Permit NV0023060 (the “Permit”) for the discharge of treated water to the Las Vegas Wash as part of its on-going effort to capture and treat groundwater containing perchlorate and other contaminants of concern at the NERT site in Henderson, Nevada (the “Site”). At approximately 8:45 AM PST on June 3, 2016 a spill occurred within Lift Station 1, a component of the NERT Groundwater Extraction and Treatment System (GWETS), located at 800 E. Athens Road in Henderson, Nevada as documented in the attached report. Based on visual observations, NERT estimates that approximately 0.25 gallons of untreated groundwater escaped from the containment pad and discharged to the ground surface. Consistent with the notification requirements defined by the Permit, the Trust called the spill hotline on June 3, 2016 and received Spill Report number 160603-01. Immediate corrective actions were taken by the GWETS operator, Envirogen Technologies, Inc. (ETI), as documented in the attached letter.

If you have any questions or concerns regarding this matter, please feel free to contact me at (702) 686-9611 or at steve.clough@nert-trust.com.
