RE: Phase 2 Remedial Investigation Modification No. 15
Nevada Environmental Response Trust
Henderson, Nevada

Dear Dr. Dong:

The Nevada Environmental Response Trust (NERT) is pleased to present the Phase 2 Remedial Investigation (RI) Modification No. 15 for Nevada Division of Environmental Protection (NDEP) review and approval. The purpose of this modification is to obtain NDEP's approval to modify the planned RI soil and groundwater sampling activities associated with the AP-5 Pond. The original scope of work only included shallow soil borings and NERT believes that deeper soil borings are necessary to delineate the vertical extent of contamination in this area. Data collected as part of these efforts will support the final closure of the AP-5 Pond and the ongoing RI. As such, NERT directed Ramboll to prepare the attached scope of work. NERT believes that this information is necessary for the remedial alternatives evaluation of the Feasibility Study and design of the final remedy.

If you have any questions or concerns regarding this matter, feel to contact me at (702) 960-4309 or at steve.clough@nert-trust.com.
