Mr. Weiquan Dong, Ph.D., P.E.
Bureau of Industrial Site Cleanup
Nevada Division of Environmental Protection
2030 E. Flamingo Road, Suite 230
Las Vegas, NV 89119

RE: Response to Comments on the Final Report of Findings
In-Site Bioelectrochemical Laboratory-Scale Treatability Study
Nevada Environmental Response Trust
Henderson, Nevada

Dear Dr. Dong:

The Nevada Environmental Response Trust (NERT or “Trust”) is pleased to present the response to comments on the final report of findings for the In-Situ Bioelectrochemical (ISBEC) Laboratory-Scale Treatability Study for Nevada Division of Environmental Protection (NDEP) review. The ISBEC Laboratory-Scale Treatability Study Report (Report) was submitted to NDEP on February 26, 2020, and agency comments were received on March 23, 2020.

As you are aware, and subsequent to submittal of the Report, the Trust had communicated to NDEP regarding its desire to discontinue further evaluation of ISBEC technology in a field application. While the Trust continues to evaluate various other in-situ remedial technologies, including Zero-Valent Iron and carbon-based donor bioremediation, further evaluation of ISBEC may be warranted in the future if deemed prudent based upon review of additional data.

If you have any questions or concerns regarding this matter, feel to contact me at (702) 960-4301 or at brian.loffman@lepetomaneinc.com.
