

TECHNICAL MEMORANDUM

Cc: Nevada Division of Environmental Protection
United States Environmental Protection Agency

From: Dana Grady

Date: August 26, 2020

Subject: **Las Vegas Wash Bioremediation Pilot Study Monthly Progress Report**

At the direction of the Nevada Environmental Response Trust (NERT or Trust), Tetra Tech, Inc. (Tetra Tech) has prepared this memorandum which summarizes Tetra Tech's progress during July 2020 toward successfully implementing the Las Vegas Wash Bioremediation Pilot Study.

Task Progress Update: July 2020

Task M19 – Las Vegas Wash Pilot Study

- Current Status
 - Drilling began on February 10, 2020 and continued through June 12, 2020, which included the installation and development of 175 injection and monitoring wells.
 - Drilling activities were temporarily suspended pending approval from the City of Henderson to install the remaining 17 upgradient monitoring wells located in the City of Henderson landfill. Approval from the City of Henderson to install the remaining wells was received on July 27, 2020 and drilling will resume in August 2020.
 - A final layout map and construction details of all injection and monitoring wells will be provided in future monthly progress reports upon completion of the final drilling effort.
 - Access negotiations with the City of Henderson for the use of a portion of their landfill as a staging area during injections are on-going.
- Schedule and Progress Updates
 - Tetra Tech continues to monitor the COVID-19 situation. At this time, this task remains on schedule.
 - Well installation activities are scheduled to be completed in August 2020.
 - Baseline groundwater sampling and remaining aquifer testing will be performed following completion of well installation and development activities on City of Henderson property and approval of the Underground Injection Control (UIC) permit modification request.
- Health and Safety
 - There were no safety incidents related to Task M19 during July 2020.

- Safety measures continue to be implemented to minimize potential exposure to COVID-19, including the use of face coverings, gloves, and hand sanitizer, as well as protocols for monitoring temperatures, minimizing the number of people on site at one time, and evaluating tasks to increase physical distance between personnel.
