0600 Daus at GES Making brackets for Nitrogen tank.

0700 AT GES LOADING TRUCK

0930 Check in at entac -
Need to make a parts run for universal Quick connect and some crescent wrenches.

1010 - Cannot locate power cord for controller; Rick Cooke cannot locate it in office. Will check with the crew sampling phase B to see if they have bats. Set up at AA-01

1030-1400 - locate rest of wells -
NOTE 2" CAPS / 4" PUG IN PVC T ON TR-3, TR-12 IS THAT THE SAMPLING PORT LOCAL? VERIFY WITH Brian for will need some pipe wrenches if so
Return to office.

~~1046 AT CR-11; CALCULATE THAT WELL NEEDS TO RUN 35 HOURS TO PURGE 3 well volumes.~~
