RE: NPDES Permit NV0023060
Revised Operations and Maintenance Manual
Nevada Environmental Response Trust
Henderson, Nevada

Dear Compliance Coordinator:

The Nevada Environmental Response Trust (“NERT” or the “Trust”) maintains NPDES Permit NV0023060 for discharge of treated water, as part of their on-going effort to capture and treat groundwater containing perchlorate in the Henderson, Nevada area. Section I.A.13 of the NPDES Permit states: “The facility shall be operated and maintained in accordance with the Operations and Maintenance (O&M) Manual, which must be approved by the Division. The O&M Manual shall be updated whenever there is a change in the operation of the facility.”

For your approval, NERT is submitting the attached updated O&M Manual for the NERT Perchlorate Treatment System, Revision 3 – April 2015, which has been revised by Envirogen Technologies, Inc. (Envirogen), the groundwater treatment plant operator, to reflect the addition of spill response procedures.

If you have any question concerning this submittal, please free to contact me at (702) 686-9611 or at steve.clough@nert-trust.com.

Office of the Nevada Environmental Response Trust

Stephen R. Clough, P.G.
