REPORT FOR CHROMIUM AND PERCHLORATE, JULY – DECEMBER
2014, REVISION 1, DATED JUNE 11, 2015**

Date August 4, 2015

Dear Mr. Dong:

On behalf of the Nevada Environmental Response Trust (Trust), Ramboll Environ US Corporation (Ramboll Environ) has prepared an annotated response to the Nevada Division of Environmental Protection (NDEP) comments on the Data Validation Summary Report (DVSR) and Electronic Data Deliverable (EDD) included as part of the Semi-Annual Remedial Performance Report for Chromium and Perchlorate, July – December 2014, Revision 1, dated June 11, 2015. The comments were included as Attachment A in NDEP's letter to the Trust dated July 14, 2015. Our responses to NDEP comments are provided in Attachment A to this letter. Revised copies of Tables III and IV of the DVSR are provided with this letter.

DVSR Comments

- 1. Table IV "Reason Code Definition" does not match with the Table II definition for "sp". Please revise Table IV to include the correct "Reason Definition Code" for "sp" and also add a column that shows the SQLs for results. The revised Table IV can be submitted electronically.*

Response: In Table IV, the Reason Code Definition for Reason Code "sp" has been changed to "SQL < Detect < PQL" to note that the detection is greater than the SQL and less than the PQL. Although the wording is different, this definition is consistent with the definition of "sp" as "detected value reported >SQL <PQL" previously included in Table III (formerly Table II). To avoid confusion, the definition in Table III has also been changed to "SQL < Detect < PQL". As requested, the revised Table IV includes SQLs. The revised Table III and IV are provided with this response.
