RE: Technical Memorandum, Remedial Investigation Data Evaluation
Nevada Environmental Response Trust
Henderson, Nevada

Dear Mr. Dong:

The Nevada Environmental Response Trust (NERT) is pleased to present the Remedial Investigation Data Evaluation Technical Memorandum summarizing the results of Phase 1 Remedial Investigation (RI). This document has been prepared to summarize the results of the Phase 1 RI sampling activities, identify data gaps, and proposed additional sampling necessary to characterize site conditions and delineate the extent of the contamination in soil and groundwater.

With regards to the Phase 2 Work Plan, and upon receipt of comments, the NERT will prepare documentation and present a budget for implementation. To enable the Trust the ability to meet our program schedule, the NERT requests comment on Section 7 of the Technical Memorandum by June 27, 2016.

After completion of the Phase 2 activities proposed in the attached document, NERT will prepare a comprehensive RI Report inclusive of the Phase 1 data as presented herein, the data from the on-going Unit 4 Investigation, and the data from the on-going Downgradient Study Area investigation currently being conducted by AECOM under the direction of NDEP.

If you have any questions or concerns regarding this matter, feel to contact me at (702) 960-4309 or at steve.clough@nert-trust.com.
