RE: Phase 2 Remedial Investigation Modification No. 13  
Nevada Environmental Response Trust  
Henderson, Nevada

Dear Mr. Dong:

The Nevada Environmental Response Trust (NERT) is pleased to present the Phase 2 Remedial Investigation (RI) Modification No. 13 for Nevada Division of Environmental Protection (NDEP) review and approval. The purpose of this modification is to obtain NDEP's approval to install additional wells at the NERT Site and collect additional soil and groundwater samples to support the ongoing Remedial Investigation. With the discovery of a permeable zone within the Upper Muddy Creek formation at a depth of approximately 70 feet below grade, NERT directed Ramboll to prepare the attached scope of work. NERT believes that understanding the lateral extent of impacted groundwater within this permeable zone will be critical information necessary for the remedial alternatives evaluation of the Feasibility Study and design of the final remedy. Additional soil and groundwater samples are also proposed to improve the vertical delineation of contamination in this area. All data obtained as a result of the proposed effort will be evaluated in the forthcoming Remedial Investigation Report.

If you have any questions or concerns regarding this matter, feel to contact me at (702) 960-4309 or at [steve.clough@nert-trust.com](mailto:steve.clough@nert-trust.com).
