NDEP Facility ID #H-000539

Nevada Division of Environmental Protection (NDEP) Response to: *Annual Remedial Performance Report for Chromium and Perchlorate, Nevada Environmental Response Trust, Henderson, Nevada, July 2012 – June 2013*

Dated: August 30, 2013

Dear Mr. Steinberg,

The NDEP has received and reviewed the Trust's above-identified Deliverable and finds that the document is acceptable with the following comments noted for the Administrative Record:

All future semi-annual and annual remedial performance reports should provide following quantitative metrics:

1. The concentrations at which NERT is achieving 90% and 99% capture of perchlorate and chromium;
2. Monthly perchlorate and chromium mass removal from the Interceptor Well Field (IWF), Athens Road Well Field (AWF) and Seep Well Field (SWF);
3. Perchlorate and chromium capture efficiency of IWF, AWF and SWF. The results should be presented as Table 6-1 of the Capture Zone Evaluation Report (Northgate, December 10, 2010);
4. Perchlorate and chromium plume mass estimates. The results should be presented as Table 4-1 of the Capture Zone Evaluation Report (Northgate, December 10, 2010);
5. Mass loading at Northshore Road.

Please contact the undersigned with any questions at wdong@ndep.nv.gov or 702-486-2850 x252.

Sincerely,

A handwritten signature in blue ink that reads "Dong" followed by a stylized flourish.

Weiquan Dong, P.E.
