**Subject:** RE: NERT Contingency and Work Plan for GW-11 Pond/AP-5 Solids Removal Project Subsurface Investigations

Dear Mr. Steinberg,

The NDEP has received and reviewed the Trust's above-identified Deliverable through email and finds that the document is acceptable with the following comments noted for the Administrative Record:

1. Both GW-11 subsurface investigation and AP-5 solids removal projects are within the GWETS operation area, so pre-excitation and drilling extra caution should be taken to prevent the interruption of the GWETS operation.

Thanks,  
Weiquan

**Subject:** NERT Contingency and Work Plan for GW-11 Pond/AP-5 Solids Removal Project Subsurface Investigations

Weiquan:

On behalf of the Nevada Environmental Response Trust (NERT or the Trust), please find attached the Contingency and Work Plan for the GW-11 Pond/AP-5 Solids Removal Project Subsurface Investigations. This plan, required by the Site Management Plan (SMP) for the NERT Site, has been approved by the Trust and is being submitted to NDEP for review and approval, prior to initiating the project.

We would appreciate your review and approval of the attached document by mid-April 2015. We are available to address any review comments you may have. Please let me know of any questions or comments you have on this document.

Regards,

**Derek Amidon, P.E. | Vice President**
