**NDEP Facility ID #H-000539**

Nevada Division of Environmental Protection (NDEP) Response to: *Semi-Annual Remedial Performance Report for Chromium and Perchlorate, Nevada Environmental Response Trust Site; Henderson, Nevada, July – December 2014*

Dated: April 30, 2015

Dear Mr. Steinberg,

The NDEP clarified its comment Item 15 of the letter of May 20, 2015 after discussion with the Trust. The comment Item 15 was revised as following for the Administrative Record:

1. Appendix B Groundwater Field Recodes. The field sampling reports didn't report field sampling parameters. The field sampling parameters, at a minimum, temperature, pH, specific electrical conductance (SEC), dissolved oxygen (DO), and oxidation-reduction potential (ORP) should be reported with each well from which the groundwater sample is taken in future semi-annual and annual remedial performance report.

Please contact the undersigned with any questions at [wdong@ndep.nv.gov](mailto:wdong@ndep.nv.gov) or 702-486-2850 x252.

Sincerely,

Weiquan Dong, P.E.
