From: Donald LaFara, Branch Supervisor, Laboratory Certification Program

Re: Sterile filtration of non-compliance perchlorate samples

Dear Mr. Steinberg,

The purpose of this correspondence is to clarify that water samples collected for non-compliance perchlorate analyses by USEPA Method 314.0 do not need sterile filtration.

If you have any questions or concerns please contact me at dlafara@ndep.nv.gov or 775-687-9491.
