Nevada Division of Environmental Protection (NDEP) Response to: *Response to
Comments - In-Situ Chromium Treatability Study Work Plan
Nevada Environmental Response Trust
Henderson, Nevada*

Dated: August 3, 2016

Dear Mr. Steinberg,

The NDEP has received and reviewed the Trust's above-identified Deliverable and finds that the document is acceptable with the following comments noted for the Administrative Record:

1. Chromium and perchlorate have been found in the same place at the NERT site. NDEP suggests that both hexavalent chromium and perchlorate be considered together when hexavalent chromium and perchlorate occur in the pilot study site, which means that one of the pilot study goals is to find the most appropriate chemical and biological carbon substrate amendments to promote hexavalent chromium and perchlorate reduction under site-specific conditions.

Please contact the undersigned with any questions at wdong@ndep.nv.gov or 702-486-2850 x252.

Sincerely,

Weiquan Dong, P.E.
