Re: **Tronox LLC (TRX) Facility
Nevada Environmental Response Trust (Trust) Property
NDEP Facility ID #H-000539**
Nevada Division of Environmental Protection (NDEP) Response to: *Semi-Annual Groundwater
Monitoring and GWETS Performance Report, July – December 2020 performance period and
Associated DVSR/EDD*

Dated: November 9, 2021

Dear Mr. Steinberg,

The NDEP has received and reviewed the Trust's above-identified Deliverable and finds that the document is acceptable with the following comments noted for the Administrative Record:

1. The NERT is still investigating the OU-3, so NDEP reserves its comments on the sources to the perchlorate mass loading to the Las Vegas Wash until the completion of all remediation investigations.
2. Section 5.4 Completeness. The table lists 507 anion results reported. The EDD indicates two of those results (Nitrate) are flagged with "orr". The chromium VI, perchlorate, and chlorate results were reduced by the respective number of results flagged with "orr". Please present the total results reported consistently across all analyses. Check the total results for all analyte results and the total for anions. Please re-submit electronic DVSR with an explanation after addressing the inconsistency.

Please contact the undersigned with any questions at wdong@ndep.nv.gov or 702-668-3929.

Sincerely,

Song Weiquan
