Nevada Division of Environmental Protection (NDEP) Response to Annual Groundwater  
Monitoring and GWETS Performance Report, July 2021 – June 2022 Performance Period

Dated: November 20, 2023

Dear Mr. Steinberg,

The NDEP has received and reviewed the Trust's above-identified Deliverable and finds that the document is acceptable with the following comments noted for the Administrative Record:

1. NDEP reserves its comments regarding perchlorate mass loading contributions, plume comingling, and flux/discharge into the Las Vegas Wash until after its review of the NERT OU-3 RI Report and finalized NERT groundwater model, both of which are currently in development.
2. The perchlorate mass fluxes crossing the boundaries between the operation units, model layers and southern bank of the Las Vegas Wash are heavily dependent on the NERT groundwater model that is still in developing, so NDEP also reserves its comments on these fluxes until the NERT groundwater model is finalized and approved.

Please contact the undersigned with any questions at [wdong@ndep.nv.gov](mailto:wdong@ndep.nv.gov) or 702-668-3929.

Sincerely,

*Dong Weiquan*
