901 South Stewart Street, Suite 4001
Carson City, NV 89701-5249

SUBJECT: Third Quarter 2008 DMR - NPDES Permit # NV0000078

Tronox LLC (Tronox) maintains an NPDES Permit #NV0000078 covering its production operations in Henderson, Nevada. The attached Discharge Monitoring Reports (Attachment 1) reflect discharge from the Tronox Henderson facility as monitored by NPDES equipment. Stabilized water, from water leaks, discharged through the outfall collection systems for brief periods are quantified in Table 1a, below. Storm water discharge is quantified in Table 1b, below.

Table 1a. Non-Storm Flow Totals

Outfall	July Flow (thousands of gallons)	August Flow (thousands of gallons)	September Flow (thousands of gallons)
001	0 ^a	0 ^a	0 ^a
002	8.29	5.32 ^b	2.27 ^c
003	0	0	0

Table 1b. Stormwater Flow Totals

Outfall	July Flow (thousands of gallons)	August Flow (thousands of gallons)	September Flow (thousands of gallons)
001	0 ^a	459	0
002	24.7	25.1	0
003	0	0	0

^a Although minor flows were recorded on the flow meter, due to the low flows & overall length of the onsite storm water ditch, water was contained onsite and was not discharged off site.

^b Due to the extremely low flows (190 gpd average), composite sampler was unable to sample this low flow.

^c Due to extremely low flows, needed to pull a grab sample in place of a composite sample.

Analytical associated with outfall flow is attached to this report. Should you have any questions concerning this report, please contact Mike Skromyda at (702) 651-2228 or e-mail michael.skromyda@tronox.com Thank you.

Sincerely,

William K. Taylor
Production Manager
