NPDES Compliance Coordinator
State of Nevada Division of Environmental Protection
Bureau of Water Permits & Compliance
901 South Stewart Street, Suite 4001
Carson City, Nevada 89701-5249

Dear Ms. Silsby:

SUBJECT: Discharge Monitoring Reports (DMRs) – First Quarter 2010 – NPDES Permit NV0023060

Tronox LLC maintains an NPDES Permit #0023060 for discharge of treated water, as part of their on-going effort to remediate perchlorate in the Henderson area. The attached DMRs (Attachment 1) reflect information associated with the remediation efforts, i.e. surface discharge of treated groundwater near the Las Vegas Wash. Supporting analytical summaries for the quarter are included in Attachment 2, with the quarter's supporting analytical reports supplied in electronic format on a CD included in Attachment 3.

During the first quarter of 2010 the biological perchlorate remediation process continued to demonstrate compliance with the 18 ug/l (ppb) permit limit for a monthly average concentration of total perchlorate concentration. Please note that analyses of "Attachment A" analytes, for the treated discharge, continue to indicate that there is no significant increase in "other constituents".

Listed separately are analytical results for four Las Vegas Wash locations, which require analyses to evaluate the mixing zone and impact on constituent load as well as the upgradient on-site groundwater well. Analytical summaries are included in Attachment 2 (for your convenience in reviewing the information) with supporting analytical reports provided in electronic format on a CD included in Attachment 3.

Note a report regarding the biological process generated solid waste in Attachment 4.

I hereby certify that I am responsible for the services described in this document and for the preparation of this document. The services described in this document have been provided in a manner consistent with the current standards of the profession and, to the best of my knowledge, comply with all applicable federal, state and local statutes, regulations and ordinances.

Tronox. Adding value beyond the product.

560 West Lake Mead Parkway, Henderson, Nevada 89015 • P.O. Box 55, Henderson, Nevada 89009

NPDES Compliance Coordinator

RE: FBR Biological Solids 1st Quarter Reporting

Via email

Dear Susan,

The NDEP Authorization to Discharge Permit No. NV0023060 section I.A.11 requires facilities that generate and dispose of sludge to monitor certain constituents; the frequency of monitoring depends upon the amount of sludge produced.

The FBR Perchlorate Reduction Process generated 26.10 dry metric tons of biological solids in the 1st Quarter of 2010. This extrapolates to an expected production of 106.03 metric TPY of dry FBR biological solids.

Attached for your review is the 1st Quarter of 2010 sludge monitoring results reported in mg per kg of dry sludge based on MWH Laboratories analysis (MWH Service Report #324791 for Tronox LLC).

Please contact me if there are any questions. I will send hard copy by mail with the attachments.

Sincerely,

A handwritten signature in black ink, appearing to read 'Thomas McDaniel', written over a large, stylized circular flourish.

* MATRIX TYPES:

Reported by Volume:
 CFW = Chlor(am)inated Finished Water
 FW = Other Finished Water

RGW = Raw Ground Water
 RSW = Raw Surface Water

CWW = Chlorinated Waste Water
 WW = Other Waste Water
 SW = Storm Water

Reported by Weight:
 SO = Soil
 SL = Sludge

BUILDING A BETTER WORLD

March 04, 2010

Ms. Susan Crowley
Tronox
PO Box 55
Henderson, NV 89009

Subject: Case Narrative report 324791

Sample receipt: The samples arrived at MWH Laboratories, Monrovia, CA on January 29, 2010 with proper chain of custody. All containers were received without any visible signs of tampering or breakage at proper temperature. Samples are identified on the acknowledgement, which is part of the report package, along with the chain of custody.

Case Narrative:
For the MWH Laboratories data the following issues were observed:

Other Observations:

Analytical results for Method 3550B/8081A, Method 3050B/6010B and Method 7471A are submitted by Emax Laboratories, Inc. Torrance, CA
The

Sincerely,

A handwritten signature in cursive script that reads "Linda Geddes".
