

LEGEND

- Shallow Water Bearing Zone Well (used in Contouring)
- Deeper Water Bearing Zone (not used in Contouring)
- Total Dissolved Solids (TDS) Iso-concentration Line (mg/L) (Dashed where approximate)
- 1700 Total Dissolved Solids (TDS) Concentration (mg/L)
- J- Estimated Concentration with Negative Bias
- 4242 Calculated TDS Concentration (mg/L) from Conductivity X0.707
- NA No Analysis
- ▭ Nevada Environmental Response Trust Property Boundary
- ▨ Area of shallow Upper Muddy Creek (UMC) deposits (so called "UMCf Ridge")

Note: Results shown may have been rounded for clarity. See Table A-1 and A-2 for all results reported to full precision.
