RE: Relocation of Monitoring Well
Nevada Environmental Response Trust
Henderson, Nevada

Dear Dr. Dong:

As you are aware, the Nevada Environmental Response Trust (NERT) sold Parcel H last year. The new owner is currently preparing a plan to redevelop the property and has asked that NERT relocate monitoring well M-103 such that a new building can be constructed at that location. Consistent with Section 7.2(a) of the Easement Agreement between NERT and TRECO, LLC, if requested, NERT is required to relocate any wells located within the area planned for construction of a building or other permanent structure, at its costs, within 90 days after approval of such relocation by the Nevada Division of Environmental Protection (NDEP). The new owner has requested that well M-103 be relocated approximately 160 feet northeast of its current location, as shown on the attached map. NERT has completed a review of the requested well relocation and does not have any concerns. This well is currently part of the ongoing groundwater monitoring program and serves as an upgradient sampling location. NERT is seeking the NDEP's approval to relocate well M-103 in accordance with the attached map.

If you have any questions or concerns regarding this matter, feel to contact me at (702) 960-4309 or at steve.clough@nert-trust.com.
